

HEAVY BATTLE STILL RAGES

RUSSIAN FORCES GAINING GROUND

Repulse the Austrian Troops and Assume the Initiative Do the Russians.

RUSSIANS ARE ADVANCING

Central Powers Are Said to Be Experiencing Difficulty with Bulgaria Now.

LONDON, Jan. 3.—The latest despatches from the southern extremity of the Russian front indicate that heavy fighting is continuing with the Russian army of General Ivanoff gaining ground. One correspondent reports that these operations began with an offensive movement on the part of the Austrians designated to strengthen their line, and that after repulsing this attack the Russians assumed the initiative. It is evident that the Russian advance has now extended a considerable distance beyond the Strpa river.

In other despatches it is asserted that two great offensive actions clashed, the Russians having advanced as a threat against the Austrians in their Balkan operations, while the Austrians and Germans felt the necessity of improving their positions against the attacks expected from General Ivanoff, early in the spring. Whatever may be the facts there is no doubt the result of these operations will have an important effect on the Balkan campaign, especially in their influence on the future plans of Roumania.

It is reported with increasing frequency that the central powers are planning an attack on Saloniki, but they are said to be experiencing difficulties with Bulgaria, which, according to these reports, does not wish to participate in such a campaign unless it promises something more than expulsion of the Allies from Saloniki. In Athens anxious thought is being given to the seizure of the consuls representing Germany and its allies at Saloniki. It is expected that so far as Greece is concerned the incident will be closed with the release of the consuls under safe conduct.

Germany and its allies denounce the arrest of the consuls as a violation of international law, while Bulgaria has retaliated by arresting the French vice consul at Sofia.

England avails with the greatest interest details regarding the bill for compulsory military service, which Premier Asquith will introduce in the House of Commons Wednesday. It is announced that Ireland will come within the scope of the bill.

Opposition to the measure, according to some newspapers, probably will be divided into two parties, one opposing conscription in any form, and the other, while admitting the necessity of some kind of conscription, opposing enlargement of the army.

GERMAN SUCCESSES IN THE WEST DISTRICT

BERLIN, Jan. 3.—German troops made an attack on a wide front north of the road between LaBassee and Bethune yesterday after conducting mining operations on a large scale. The war office announced today that the occupants of one trench were buried by an explosion, or shot down and that in some other positions the Allied troops fled.

French artillery on January 1 shelled the town of Lutterbach in Alsace. The announcement says one girl was killed and one woman and three children were wounded, as they were leaving church.

On the eastern front the Russians continue their operations with patrols and other small detachments but without success.

But Some is Left and Lloyd and Aubrey Duff Are Arrested.

Tenney, deputy state commissioner of prohibition, assisted by deputy sheriffs, as they alighted from eastbound passenger train No. 2 at the local railroad station.

A quantity of intoxicants in labeled containers was brought to the city by the Duffs, according to the officers, but the most of it was destroyed by a passing freight train upon an adjoining track, where it had been set while the Duffs were getting off on the "blind" side of the train. Charge of Austrian Embassy Asks That Judgment Be Suspended at Present.

WASHINGTON, Jan. 3.—The new international crisis brought on by the Teutonic submarine campaign in the Mediterranean moved forward swiftly today and was marked by several outstanding developments.

President Wilson has cut short his honeymoon at Hot Springs, Va., and will leave there tonight, arriving in the capital early tomorrow to take personal charge of the situation.

Baron Zwiadnek, charge of the Austrian embassy, assured Secretary Lansing that should it be found an Austrian submarine sunk the Persia with loss of American lives his government would promptly give reparation and satisfaction. He asked that judgment be suspended until all the facts were known.

The state department instructed Ambassador Penfield at Vienna to make inquiries for information looking to determine the nationality of the submarine and in any event develop the facts in the case.

Consular and consular agents in the vicinity of Alexandria were instructed to gather affidavits from the Persia's survivors and any others which might throw light on the situation.

The fact that the Persia mounted one gun was disclosed in a despatch from American Consul Garrels at Alexandria. What effect that will have on the situation cannot be definitely determined until it is known whether the gun was mounted for offense or defense.

Everywhere in Washington is official and diplomatic circles and at the capitol, where Congress reassembles tomorrow after the holiday recess, the situation was viewed as fraught with grave eventualities.
